

Sparking a Difference

At Loeb, we believe it's everyone's responsibility to help others, and we work hard to make sure our communities grow alongside us.

Our Social Responsibility team regularly organizes events and fundraisers to engage our employees and raise money for a variety of local charities. We're proud to announce that our President, Charles Loeb, matches these donations dollar-for-dollar to double our impact!

We also support our local community through involvement in programs such as the Professional Work-Study Program with Cristo Rey Columbus High School. A select number of students work one day a week at our offices during the school year. This investment in student workers makes college-preparatory education possible, and offers mentoring and support, for students with economic needs.

We strive to bring our corporate values—people, trust, commitment, and innovation—into our community every day.
