

Lighting Design & Analysis

Create your space with the right lighting

Lighting remains one of the most critical areas of design, a medium to support your brand aesthetic, increase sales, and provide safety. But with so many options, it's essential to have a partner to listen to your goals and provide a lighting design to meet the needs of your space.

At Loeb, we work in conjunction with your design and engineering team on the perfect fixture, location, and color temperature to maximize your space and investment. We help with:

- **Concept to specification**
- **Value engineering existing specifications**
- **Full photometric design & analysis using AGi32, Visual, and/or SketchUp 3D modeling**
- **Financial payback analysis**
- **Energy-saving calculations**
- **Dedicated team with a combined 100+ years' experience in lighting, controls, & design applications**

Speak with your Loeb Sales Representative or call us today to help design the lighting in your next project.
